

Systems Opportunities

The London On-Line Local Authorities, (a consortium of 4 London Boroughs) has vacancies at its new computer centre for experienced IBM 360 people to help develop its integrated data base of property, people and resources, with on-line retrieval and up-dating. The initial configuration is an IBM 360/50 with 512K store using MFT-[...] and IMS with a network of over 50 VDU's.

The SYSTEMS PROGRAMMER will work in the Technical Support team which provides a service in such areas as telecommunications, restart and reentry, non-standard software, use of OS and IMS. 3 [...] generation and programming standards (PL/1 and Assembler).

The ANALYST/PROGRAMMERS will work in the Applications Support team which involves creating and managing the data base, providing generalised on-line and batch facilities and systems standards.

The two teams have a joint responsibility for system performance.

Application form and further details available from:

Head of Computer Services.
London On-Lire Local Authorities.
Tower Point North, Sidney Road,
Enfield, Middx.

Tel: 01-366 6411.
